STORY

Established in **1994**, **Meeting Project srl** has been operating for 30 years as an Audio Visual Service Provider specializing in meetings, conferences, and live events and as a System Integrator, designing and installing multimedia systems in conference centers and dedicated public and private meetings and training venues.

Its headquarters for administration and sales are in Merate (Lecco).
Its technical and operational office is in Milan. It relies on a team of skilled in-house specialists and trusted professional partners.

Since **1997**, it has been a member of Confindustria Lecco & Sondrio.

Since **2013**, it has been a SIEC - System Integration Experience Community member.

Since **2008**, it has been the Technical Sponsor of Teatro alla Scala in Milan.

In **2009**, Meeting Project was the first Italian company to be awarded the InAvation Award by I.S.E. - Integrated System Europe, the largest and most authoritative European Fair in the professional Audio Video industry. The award was assigned in the Corporate Facility category to acknowledge its contribution to the planning and execution of the Unimanagement International Research and Training Center in Turin commissioned by Unicredit Group.

In **2011**, Meeting Project was among the founders of the Italian Technology Platform on Cultural Heritage set up by Confindustria Innovative & Technological Services together with MIUR (Italian Ministry of Scientific Research and Education) to promote the use of innovative services, new technologies, and Information Technology to exploit and enhance cultural heritage.

In **2015**, Meeting Project was among the first companies in the sector to achieve ISO 9001:2008 certification for its quality management system.

In **2018**, the company received the Bosch Award.

Since **2018**, it has been certified against the ISO 9001:2015 Quality Management System standard, ACCREDIA

SYSTEM INTEGRATOR

From small to large projects, from small to large installations, Meeting Project's approach remains the same: understand the client's needs, and provide appropriate and effective technical solutions. Our working methodology is based on a staged approach and key concepts: **brainstorming, technical briefing, feasibility study, product identification, design, and implementation.** System Integrator activities include scheduled maintenance, technological upgrades of installed audiovisual systems, and technical management

The projects we have completed include the following:

Arena di Monza – Sound system for arena and grandstands, press room, trainers' room, gymnasium

ATM Milano (Milan Transportation Company) – Audio-video-videoconferencing systems for the Crisis Room

Milan Chamber of Commerce – 2 venues: Palazzo Giureconsulti, Palazzo Turati - Audio-video systems
(event areas, meeting rooms)

Como-Lecco Chamber of Commerce – Audio-video system (auditorium in Como and Lecco)

CFMT Service Industry Management Training Center in Milan and Rome – Audio-video systems

Mountain Community of Valsassina, Valvarrone, Val d'Esino & Riviera – Audio-video-videoconferencing systems, of "Collaboration Meeting" room (Mountain Community auditorium and 26 city council meeting rooms)

Confindustria Lecco & Sondrio – Audio-video-videoconferencing systems (auditorium and meeting rooms)

Edison Milano – Audio-video-videoconferencing systems (shareholders meeting room, meeting rooms, trading room, orangerie)
– Audio-video systems at "Officine", Milan Bovisa Polytechnic

Edison Torino – Audio-video systems at "Officine" Turin Polytechnic

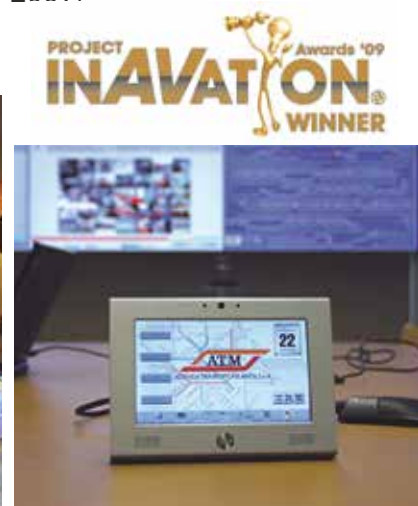

IBM Italia – Milano - Client Center in Segrate (MI) – multimedia systems (auditorium and meeting rooms)
– Roma - Software Executive Briefing Center – Multimedia systems (reception area, meeting rooms)

Illimity Bank – Audio-video-videoconferencing systems (reception area, meeting rooms, Board rooms)

Red Bull – Audio-video-videoconferencing systems (conference room, meeting rooms)

EVENTS

Events production plays a crucial role in Meeting Project's corporate strategy.

We organize and provide technical and support services for corporate clients and agencies during conferences, concerts, meetings, live shows, and private events.

Our team comprises skilled professionals: producers, creative directors, architects, set designers, engineers, conference interpreters, artists, wedding planners, flower designers, photographers, location managers, and tour operators, including local firms and associations.

- Location scouting
- Stage installations
- Technical arrangements and room set-ups
- Flower arrangements
- Catering
- Reception organization and management
- Secretariat services, event staff
- Special guests, entertainment, spectacularization
- Security service, pass management

A major area of our activities is organizing companies' hospitality services for their customers and suppliers.

Meeting Project has organized entirely or contributed significantly to events on behalf of:
